#### Departure from Sliema Ferries

- Sliema** – Sliema is Malta's main coastal resort. It is a centre for shopping, restaurants and café life. Sliema is also a major commercial and residential area and houses several of Malta's most recent hotels. The coastline promenade, which runs for several kilometres from St. Julian's to Gzira & Ta' Xbiex, is ideal for walkers and joggers.
- Manoel Island** (passing) – A small island fortified by Grandmaster Manoel de Vilhena, who also built the theatre in Valletta. The architect of this project was Frenchman Françoise de Mondion, who was also the architect of Louis XIV. The island is now being conserved and converted into an exclusive residential area.
- Ta'Xbiex Harbour** (passing) – The area is studded with beautiful villas many of which have now been transformed into embassies.
- Msidja Yacht Marina** (passing) – A magnificent yacht marina with first class berthing facilities.
- Valletta** – City Gate is outside Malta's capital city which was built by the Knights of the Order of St. John in 1568 and transformed over the years into the finest example of baroque. The City is studded with historical palaces, museums, churches, gardens, cafes, restaurants and shops.
- Hamrun & Sta Venera** (passing)
- San Anton Garden** – Probably the best known of the island's gardens. San Anton Garden was laid out by Grandmaster Antoine de Paule (1623-1636) as grounds for his summer residence. The garden is a botanical delight with mature trees, old stone urns, fontanelles, ponds and formal flower beds.
- Ta' Qali Crafts Village & Aviation Museum** – The former World War II military aerodrome was converted into a hand-crafts centre. Here one can buy something completely unique to take home. Beyond the Crafts Village is the Aviation Museum displaying aircrafts. The Museum (open daily from 0900 – 1700 except Good Friday, Easter Sunday, 15<sup>th</sup> August, Christmas Day & New Year's Day) is situated in a former RAF station and among the artefacts are a rebuilt Spitfire Mk IX and a Hawker Hurricane IIa.
- Mosta** – Mosta lies at the heart of Malta. It is a busy market town. At its centre is a magnificent domed church (completed in 1860). The Mosta Rotunda (closed from 1200hrs to 1500hrs) is the third largest unsupported church dome in Europe. In World War II, the church took a direct hit from a German bomb that pierced the dome, but failed to explode. Other Mosta attractions include the Victoria Lines, the World War II shelter, the cave chapel of St. Paul the Hermit in a picturesque valley and the Chapel of Our Lady of Hope. In its limits there are also prehistoric remains such as catacombs under Fort Mosta and Bronze Age dolmens.
- Mdina** – Mdina is the old capital of Malta and its origins may be traced back to 1500BC. Mdina has had different names and titles depending on its rulers and its role but its medieval name describes it best – "Citta' Nobile": the noble city. Impressive palaces line its narrow, shady streets. Mdina is one of Europe's finest examples of an ancient walled city and extraordinary in its mix of Medieval and Baroque architecture.
- Rabat & the Domus Romana** – Rabat played a major role in Malta's history. The large provincial township was part of the Roman city of Melita. The town is a commercial centre and acts as a market for its large agricultural hinterland. It is also well established on the tourist map due to its archaeological and historical sites: The Domus Romana Museum (opened daily from 0900 to 1700 except on public holidays), Catacombs, St. Paul's Grotto and the fine churches and monasteries.
- Bingemma** (passing)
- Mgarr** – Mgarr is a typical rural village. It is surrounded by rich farmland. The area is ideal for country walks with several picturesque spots – Bingemma, Wardija, Fomm ir-Rih and Gnejna Bay. Mgarr's parish church dedicated to St. Mary was built in 1912. Mgarr is also home to two of Malta's oldest prehistoric sites; Ta' Hagrat (opening Tuesdays from 0930 to 1100) and Skorba (opening Tuesdays from 1130 to 1300). On the way to Golden Bay you will pass the Roman Baths. This heritage site is temporarily closed.
- Golden Bay** – One of the island's beautiful sandy beaches. Together with its adjoining beach, Ghajn Tuffieha, it is unspoilt and secluded. Well worth a visit and if the weather is fine, a great bathing spot.
- St. Paul's Bay** – This is the quaint location of the original Fishing harbour known as "Il-Menqa" flanked to the left by Wignacourt Tower built by the Grandmaster (1601-1622) the oldest standing watchtower of the period the Knights of St. John and to the right by St. Paul's shipwreck Chapel revered as the spot where the locals lit a fire to warm and welcome St. Paul on his unforeseen arrival on the island. Magnificent views and photo opportunities.
- Bugibba Square** – Bugibba and its neighbours Qawra & St. Paul's Bay are Malta's largest seaside resort towns. The coastline has been developed into a distinct resort with hotels and numerous holiday apartments. The water on both verges of the bay is not deep and is ideal for swimming off the rocks. The bay is popular throughout the summer. Choose the stop closest to your resort.
- Malta Sightseeing Terminus in Bugibba** (near Santana Hotel)
- Qawra Palace & Suncrest Hotel**
- Splash & Fun Park/ Mediterraneo Marine Park**
- St. George's Bay**
- St. Julian's** – St. Julian's is now a major residential and tourist centre and home to some of Malta's newest hotels. St. Julian's merges with Paceville, Malta's main nightlife centre with clubs, casinos, restaurants, cafes & bars.
- Spinola Bay**
- Balluta Bay** – A small bay between St. Julian's and Sliema. Its shores are full of cafes, kiosks and restaurants. The skyline is dominated by the Carmelite Church and the Victorian Balluta Building.

- 12. Valletta Waterfront** – Serves as a cruise liner terminal. Every year this magnificent view greets tourists who arrive in Malta by sea. Within this wharf there are a large number of commercial outlets, restaurants and cafes.
- 13. Hypogeum** – A site not to be missed. An underground Neolithic temple complex from 2500 B.C. completes with niches, oracles altars and wall paintings. Another UNESCO world heritage site. Entrance is restricted to those who have pre-booked. **Tarxien Temples** – Another megalithic temple and a UNESCO world heritage site. Built in about 2000 B.C. the site continued to be used until the early Bronze Age (1500 B.C.). *Before hoping off check with driver/representative if sites are open or not since sites will be closed for refurbishment for sometime.*
- 14. Senglea Point (photo opportunity)** – A unique chance to see Valletta and its bastions from the other side of the harbour.
- 15. Vittoriosa Waterfront** – The area has recently been conserved and transformed into one of the finest marinas in the Mediterranean with berthing facilities for super-yacht. The area also houses Malta's Maritime Museum.
- 16. Bieb Is-Sultan** – (passing) A magnificent triumphal gate built by Grand Master Nicholas Cottoner in 1675.
- 17. Żejtun Parish Church** – A medium sized town in the south of Malta. Żejtun holds the title of Città Beland, which was bestowed by Ferdinand von Hompesch zu Bolheim, Grandmaster of Knights of Malta in 1797, Beland being his mother's surname. Żejtun takes its name from the Sicilian Arabic for "olive", which was one of the main productive industries in Malta. It is also known as Hal-Bisbut, or Casal Bisbut.
- 18. Żejtun St. Gregory's Church** – Before the building of the present parish church of Żejtun, now at the centre of the town, this used to be the church of the village as it was then. It was definitely the largest and one of the most interesting in the islands during the 16<sup>th</sup> Century. Its architecture attests to its antiquity, because there is an indication that some parts were actually constructed in the 15<sup>th</sup> Century while others were built during the 16<sup>th</sup> Century.
- 19. Marsaxlokk Fishing Village** – A typical Mediterranean fishing village with colourful boats, market and fish restaurants. Mix with the locals and enjoy the fresh and relaxed atmosphere.
- 20. St. Lucian Tower (passing)** – A fine example of fortification, the watch tower was by the Order of St. John. Today it is a national aquaculture centre and visiting is restricted.
- 21. Ghar Dalam Cave and Museum** – One of the oldest caves on the island dating back 500,000 years. Skeletons of animals long extinct from the island have been found in this cave. The area is also ideal for rambling.
- 22. Blue Grotto** – A natural cave with crystal blue waters. A small fishing village from where you can take a short boat trip round this natural wonder.
- 23. Hagar Qim & Mnajdra** – Another two pre-historical temples which are situated in the same area with a short distance from each other.
- 24. Malta Falconry Centre** – Watch falconers fly several different species of well-trained birds of prey and see these majestic birds in free flight.
- 25. Limestone Heritage** – A museum which explains the importance stone always had with the island. Exhibits include tools used in bygone eras to quarry and work stone.

### Departure from Mgarr Harbour

- MĠARR** - This is Gozo's main harbour with its many fishing boats, yachts and ferry boats. Overlooking the harbour is Fort Chambray and the exquisite Neo Gothic chapel of Our Lady of Lourdes.
- RAMLA BAY** - The beach is located at the bottom of a rich and fertile valley on the northern side of the Island. It is quite wide and sandy. It's a particularly golden-reddish sand which makes this beach different from all others in Gozo and Malta. Its real Maltese name is *Ir-Ramla il-Hamra* - the Red Sandy Beach.
- SAVINA CREATIVITY CENTRE** - A location run by the master franchise for a country or a geographical area, having facilities to produce fresh delicacies, stock merchandise, train staff, customise gifts and organise distribution.
- ĠĠANTĠJA TEMPLES** - Regarded to be the oldest free-standing structures in the world, the largest megalith to be found at Ġgantija Temples weighs about 50 tonnes and its walls reach a height of around seven metres. Altars and the remnants of a fire-reddened circular stone-hearth, possibly for an eternal flame, can still be seen. **TA' KOLA WINDMILL** - One of the landmarks of Xaghra to be seen from afar is the Windmill of Ta' Kola, lying a few scores of metres away from the Church to the north west and a walking distance away from the Ġgantija Temples lying to the South. It lies on the highest point on Xaghra plateau and acquired its name after Nikola or Kola (in short) Grech, the miller who took it over early in the 20th Century.
- CALYPSO CAVE** - The location of Gozo's most popular legend is in a cave at the end of this ridge. Calypso, daughter of Atlas, entertained Odysseus for seven years until Hermes, the messenger of the gods, was sent by Zeus to bid Calypso to release the Greek hero.
- MARSALFORN** - In the year 60 AD, the Christian Apostle Paul was shipwrecked on Malta and stayed on the mainland for three months. Legend has it that on the way to Rome from Malta his ship stopped over in Marsalforn. Today, this is a popular seaside resort.
- VICTORIA** - Due to the narrow streets, it is not possible to drive to the Citadel but it is only a short walk away. As one of the highest points on the island, historical evidence shows that the Citadel has been fortified for many centuries. The town of Victoria, locally known as Rabat is certainly worth a visit.
- TA' PINU SANCTUARY** - Every year, many pilgrimages are made to the Basilica of Ta' Pinu. Our Lady of Ta' Pinu is believed to have miraculous healing powers. Ex-voto offerings, including silver objects, crutches and pictures are displayed in the church.
- TA' DBIEGI CRAFTS VILLAGE** - Situated beneath the shelter of Gozo's highest hill, huts and workshops furnish local unique handmade crafts such as the famous Gozo lace, sweaters, blown glass, pottery and ceramics, limestone, marble, onyx and alabaster, silver and gold, paintings and wood pyrography, leather, Tinsmith, candles and also local liqueurs, honey and preserved dried fruits in the traditional way. One can feel free for a one stop shop and relax for a while at the cafeteria / restaurant and enjoy the nice and quiet Gozitan countryside atmosphere.
- DWEJRA** - One of Gozo's most important natural landmarks is the stunning area known as Dwejra and includes the Azure Window, the Inland Sea, a coastal tower and the famous Fungus Rock.
- FONTANA** - It is a village with a population of 846 people. Fontana originated from the suburb of Victoria, on the Rabat-Xlendi road. Fontana is Italian name for a spring.
- XLENDI** - For centuries, Xlendi was a quiet fishing village. While this tradition continues today, it has also become a popular seaside resort with a number of small hotels, restaurants and nightclubs.
- VICTORIA BUS TERMINUS** - Until 1637, Gozitans were bound by law to spend the night within the Citadel, but after this, the surrounding area became a popular place to live. Late during the Arab period, this town became known as Rabat. Since the Jubilee of Queen Victoria of the British Empire in 1887, its official name became Victoria although it is still referred to locally as Rabat.
- XEWKĠJA** - Situated between Ghajnsielem and the capital town, Victoria. The name is derived from the Maltese word "Xewk", meaning "thistles" or "thorns". XewkĠja is famous/very well known for its majestic church, The Rotunda, which is dedicated to St. John The Baptist. It replaced an older church. This church is the Seat of the Knights of the Order of St. John. It was built from Maltese stone by local masons and craftsmen. It is the largest in Gozo and its dome dominates the village.

# Yours to discover

Nineteen beautifully restored 18<sup>th</sup> century warehouses built during the late Baroque period, stretching along the water's edge with a backdrop of historic bastions and fortifications. The gemstone buildings were originally commissioned by Grandmaster Pinto to be used as stores by the Knights of St. John.

Today, ushering in a modern era, the iconic doors have been revived with an artistic impression of colour, representing the storage of goods from days past, with blue for fish, green for produce, yellow for wheat and red for wine. The heritage buildings have been transformed into a variety of lively restaurants and bars, retail outlets and office space.

A host of services are available, ranging from a bank to a pharmacy, Wi-Fi connections, telephony services, tourist information, transport and more.
